

Fresh Alerts™ January 27, 2022

Dear friends,

We hope the New Year has been good to you so far.

As we wind our way through the winter months, you'll notice lots of foggy scenes on our Instagram feed. True, it may not be the most exciting time of year, but it's just as vital as the fresh, green season of bud break, or our spectacular harvesting season when we get to show off all those beautiful bunches.

For now, we're enjoying these misty mornings, and seeing our vines get a fresh pruning and time to rest. 🍷

[Oh, and we turn 75 this year!](#) 🎂 That's right, 2022 marks our 75th anniversary growing premium seedless table grapes from our family-owned California ranch, for the world to enjoy. We look forward to sharing our very special 2022 harvest with you this California grape season, starting in July! 🌞
